INTERIM FINANCIAL REPORT DECEMBER 2008**

DIRECTORS' REPORT

Your directors submit the financial report of the consolidated entity for the half-year ended 31 December 2008.

DIRECTORS

The names of directors who held office during or since the end of the half-year:

Paul Larsen	Chairman (Non-executive Director)
Dermot Ryan	Managing Director since 14 October 2008
Peter Del Fante	Non-executive Director until he resigned 14 January 2009
Bruce Hawley	Executive Director since 14 October 2008, Managing Director until 14 October 2009

REVIEW OF OPERATIONS

On the 14th October 2008 the Company announced that it had completed the acquisition of Enterprise Metals Limited and its portfolio of gold, uranium, iron ore and base metal projects in Western Australia. The acquisition has broadened and significantly enhanced the Company's existing portfolio of projects in Western Australia.

The acquisition followed the successful completion of due diligence, the satisfaction of all conditions precedent and acceptance of the Company's offer by all Enterprise Metals Limited's shareholders. The Company allotted 37,000,000 Ordinary Shares and 1,500,000 Options to the Vendors of Enterprise Uranium Limited (Formerly Enterprise Metals Limited).

On 10 December 2008, the Company changed its name from Revere Mining Limited to Enterprise Metals Limited, and the subsidiary Enterprise Metals Limited changed its name to Enterprise Uranium Limited.

Exploration

The entity's exploration focus over the half year ending 31 December 2008 has been reviewing and prioritizing its gold and uranium projects, and preparing and lodging *Programs of Work* ("POW") to be approved by the WA Department of Mines & Petroleum ("DMP").

Programs of work were prepared for aircore drill testing shallow calcrete hosted uranium targets at Maitland and Lake Mason, for RC drill testing of gold targets at Darlot, and for drilling and costeaning of high grade quartz-gold veins at the Revere project.

The **Maitland** project includes approximately 5 km of the main Tertiary channel system immediately upstream from Mega Uranium Ltd's calcrete hosted Lake Maitland uranium deposit, which has a published inferred mineral resource* of 32.7Mt at 330ppm U₃O₈ for 10,700 t of contained uranium. The POW for up to 161 aircore drill holes has been approved and drilling is expected to commence at Maitland in March/April 2009.

The **Lake Mason** project contains a calcrete delta overlying shallow Archaean greenstones. The tenements are prospective for uranium, as evidenced by the strong airborne uranium anomaly associated with the calcrete delta. The project area is located 40km to the south west of BHP Billiton's Yeelirrie uranium deposit. A POW for up to 400 aircore holes was lodged but not yet approved.

**ENTERPRISE METALS LIMITED
AND CONTROLLED ENTITY
ABN 43 123 567 073
INTERIM FINANCIAL REPORT DECEMBER 2008**

DIRECTORS' REPORT

At the **Revere** project, 100km NE of Meekatharra, the primary target is a large stock-work gold system which has generated a large number of reported gold nugget occurrences. Structural, magnetic and geochemical studies of the Revere project area were completed by consultants, with a number of recommendations made for Induced Polarization ("IP") surveys in 2 high priority target areas, to be followed by costeaning and drilling. One of these priority areas, referred to as Goodin's, is partially located within and adjacent to E51/1079. Structural studies have indicated that these regional scale structures are favourably orientated, pass through the tenement, and have potential for dilation zones and focused fluid movements. Approximately 15 km of IP surveying have been proposed within and adjacent to E51/1079 to assist with delineation of gold bearing sulphide stockworks under cover. Detailed geological mapping and reconnaissance will also be undertaken within this area to assist in the interpretation of results.

A Program of Work has been approved by the DMP for the drilling of 13 aircore holes (~650 metres) at the Greater Revere anomaly area, which is largely defined by a clustering of low level gold in maglag samples.

The Revere Opal Well tenement lies on the SW flank of the project area, immediately south of numerous gold nugget occurrences in the Goodins area, and is covered by a broad sheet of transported alluvium of variable thickness. The Company conducted broadly spaced reconnaissance air core drill holes (38 holes/1,553 metres) in an area where previous surface sampling was deemed ineffective. The drilling confirmed that previous surface sampling was ineffective, with the thickness of transported cover sequences averaging 10 – 15 metres. No significant gold assays were reported from the drilling, which has downgraded the potential of the tenement. A 50% reduction of this tenement was undertaken on the basis of the drilling results.

The **Darlot** project area covers 65km strike of the highly prospective Yandal greenstone belt and lies between the Mt McClure/ Bronzewing and Darlot gold mines. The area around Lake Darlot is comparatively lightly drill tested and is considered prospective for high grade gold and base metal deposits, with additional potential for shallow calcrete hosted uranium deposits. IP surveys and RC drilling are planned for the Griffin Well gold target, while aircore drilling is planned for nearby uranium targets. The Griffin Well prospect has been subject to considerable drilling with some high grade results of 16 m at 5.2 g/t Au from 37.5m including 3 m at 21.7 g/t Au from diamond core drilling. Even with seemingly tight drill coverage, there is scope for increasing the extent of known mineralization with IP and further drilling. A POW has been approved 2,500m of RC drilling (18 holes). This work is subject to confirmation of targets by IP.

New Projects

On 21st November 2008, the Company announced that it had applied for tenements over the Fraser Range area east of Norseman and south of the (now closed) Mt Gibson gold mine.

The **Fraser Range** tenements cover an area prospective for precious metal and base metal deposits. A prominent 7km long magnetic anomaly occurs over the Titan Hills area, which straddles the Eyre Highway. Historic rockchip sample results of up to 38% TiO₂ and 0.25% V₂O₅ suggest the presence of a significant titaniferous magnetite body. Field checking of this prominent anomaly will be undertaken in early 2009.

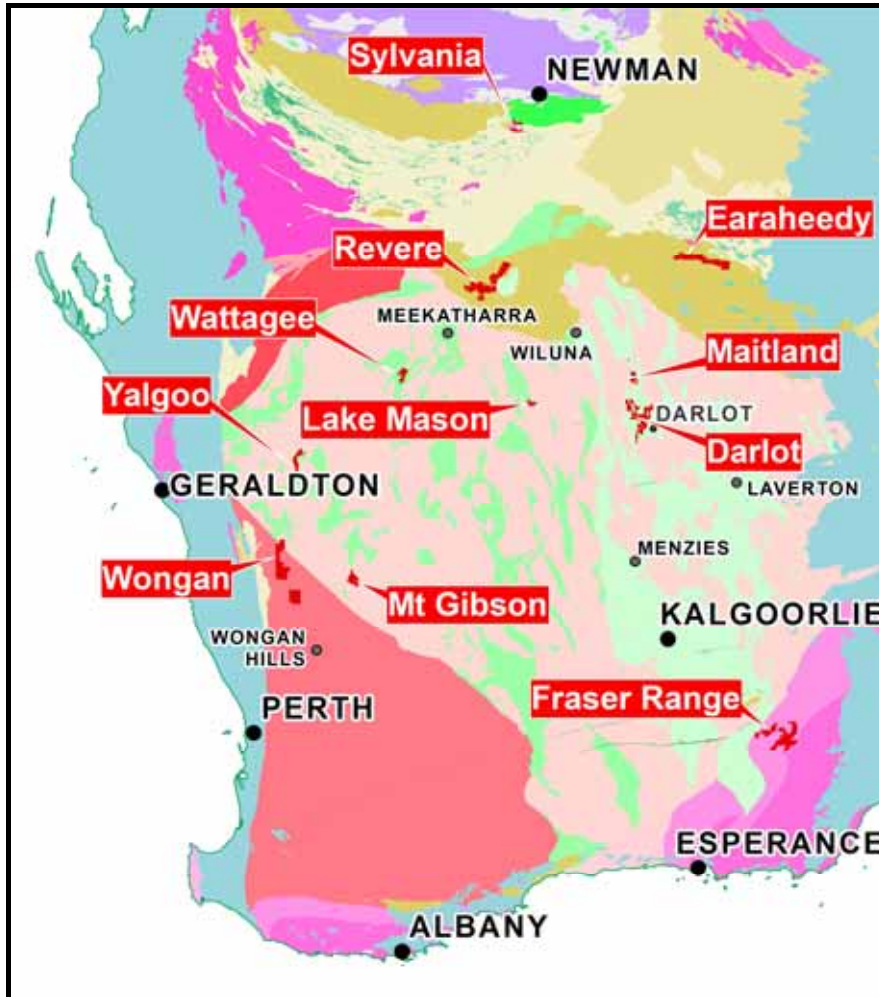

The **Mt Gibson** tenement lies immediately south of the Mt Gibson gold mine. It is considered that potential exists for deposits of gold, copper-zinc, nickel sulphides and platinum group metals, concealed below thin Cainozoic cover within this unexplored area.

The information in this announcement that relates to Exploration Results has been reviewed by Mr Dermot Ryan, who is a Fellow of the Australian Institute of Geoscientists, a Fellow of the Australasian Institute of Mining and Metallurgy, a Chartered Professional and a full time employee of geological consultancy XServ Pty Ltd. Mr Ryan has sufficient relevant experience in the styles of mineralisation and types of deposit under consideration, and in the activity he is undertaking, to qualify as a Competent Person as defined in the 2004 Edition of the "Australian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves" (the JORC Code), and consents to the inclusion of the information in the form and context in which it appears.

**AUDITOR'S INDEPENDENCE DECLARATION
TO THE DIRECTORS OF ENTERPRISE METALS LIMITED**

In accordance with the requirements of section 307C of the Corporations Act 2001, as lead auditor for the review of Enterprise Metals Limited for the half-year ended 31 December 2008, I declare that, to the best of my knowledge and belief, there have been:

- a No contraventions of the auditor independence requirements of the Corporations Act 2001 in relation to the review; and
- b No contraventions of any applicable code of professional conduct in relation to the review.

INTERIM FINANCIAL REPORT DECEMBER 2008**

**NOTES TO THE FINANCIAL STATEMENTS FOR THE
HALF-YEAR ENDED 31 DECEMBER 2008**

NOTE 1: BASIS OF PREPARATION AND ACCOUNTING POLICIES

The half-year consolidated financial statements are a general purpose financial report prepared in accordance with the requirements of the *Corporations Act 2001*, Accounting Standard AASB 134: Interim Financial Reporting, Australian Accounting Interpretations and other authoritative pronouncements of the Australian Accounting Standards Board.

It is recommended that this financial report be read in conjunction with the annual financial report for the year ended 30 June 2008 and any public announcements made by Enterprise Metals Limited and its controlled entities during the half-year in accordance with continuous disclosure requirements arising under the *Corporations Act 2001*.

The half-year report does not include full disclosures of the type normally included in an annual financial report.

The accounting policies and methods of computation have been consistently applied by the entities in the consolidated group and are the same as those adopted in the June 2008 financial report.

(a) New Accounting Standards and Interpretations

The following Australian Accounting Standards have been issued or amended and are applicable to the consolidated entity but are not yet effective. They have not been adopted in the preparation of the financial statements at reporting date.

Revised AASB 3 Business Combinations (2008) which becomes applicable for the Group's 30 June 2010 financial statements, will be applied prospectively and therefore will not have any impact on prior periods in the Group's 2010 consolidated financial statements.

AASB 101 Presentation of Financial Statements (September 2007) contains a number of changes from the previous AASB 101. These changes do not affect recognition or measurement criteria, therefore the changes are not expected to have any impact on the Group's reported financial position. This standard is applicable for annual reporting periods ending on or after 31 December 2009.

AASB 127 Consolidated and Separate Financial Statements (March 2008) amends how entities account for business combinations and changes in ownership interests in subsidiaries. As the transitional provision of AASB 127 provide that the changes to the recognition and measurement criteria within AASB 127 resulting from this revision do not apply retrospectively to business combinations effected prior to the amendments being adopted, this standard is not expected to have any impact on the entity's financial report. This standard is applicable for annual reporting periods ending on or after 30 June 2010.

AASB 2008-1 Amendments to Australian Accounting Standard – Share based Payments: Vesting Conditions and Cancellations [AASB 2]. Unless the entity enters into share-based payment transactions in future reporting periods, these amendments are not expected to have any impact on the entity's financial report. This standard is applicable for annual reporting periods ending on or after 31 December 2009.

NOTE 2: SEGMENT REPORTING

During the period the company operated in one business segment - mineral exploration and development in one geographical area - in Western Australia.

For personal use only

			<u>7,500,000</u>	<u>2,000,000</u>

NOTE 4: ACQUISITION OF ENTITIES

On 14 October 2008, 100% of the controlled entity Enterprise Uranium Limited and subsidiaries was acquired. The purchase was satisfied by the issue of 37,000,000 ordinary shares at an issue price of \$0.15 each, the issue of 1,500,000 options at an issue price of \$0.081 as valued by an independent valuer, and the payment of \$31,046 purchase costs. The issue was based on the market price at the date of purchase.

Details of this transaction are:

Purchase consideration:	\$
Costs of acquisition	31,046
Cash acquired	(7,655)
Net cash paid	<u>23,391</u>
Share capital issued	5,550,000
Options issued	121,500
	<u>5,694,891</u>

Assets and liabilities at acquisition date:

Prepayments	17,056
Plant and equipment	24,068
Exploration and evaluation	1,785,696
Intangible assets	603
Trade and other payables	(157,913)
	<u>1,669,510</u>
Excess value of exploration assets on acquisition	4,025,381
	<u>5,694,891</u>

For personal use only

AND CONTROLLED ENTITY
ABN 43 123 567 073
INTERIM FINANCIAL REPORT DECEMBER 2008**

**NOTES TO THE FINANCIAL STATEMENTS FOR THE
HALF-YEAR ENDED 31 DECEMBER 2008**

NOTE 4: ACQUISITION OF ENTITIES (cont.)

The assets and liabilities arising from the acquisition are recognised at fair value which, other than exploration and evaluation, are equal to their carrying value at acquisition date. The goodwill on acquisition has been allocated to the value of exploration and evaluation assets in the consolidated accounts.

Profit relating to Enterprise Uranium Limited and its subsidiaries amounting to \$19,769 is included in the consolidated income statement for the half year ended 31 December 2008. Had the results relating to these companies been consolidated from 1 July 2008, consolidated revenue would have been \$81,741 and consolidated loss \$607,949 for the half year ended 31 December 2008.

NOTE 5: CONTINGENT LIABILITIES

There has been no change in contingent liabilities since the last annual reporting date.

NOTE 6: RELATED PARTY TRANSACTIONS

During the half year the company paid \$353,384 to XServ, a company in which Dermot Ryan, Managing Director has an interest. At 31 December 2008, \$24,805 of this amount was owed to this company.

During the half year the company paid \$2,014 to Phillip Hoff Taxation Consultant, a significant shareholder of Enterprise Metals Limited. At 31 December 2008, \$1,505 of this amount was owed to this company.

There were no other related party transactions.

NOTE 7: CAPITAL COMMITMENTS

	Exploration Tenements	Prospecting Tenements	Total
Capital expenditure commitments contracted for:			
Granted tenements minimum expenditure requirements	1,608,295	827,159	2,435,454
Payable:			
- not later than 12 months	421,500	213,173	634,673
- between 12 months and 5 years	1,186,795	613,986	1,800,780
- greater than 5 years	-	-	-

NOTE 8: OPERATING LEASE COMMITMENTS

Non-cancellable operating lease contracted for but not capitalized in the financial statements:

Office lease to 31 December 2009:	31 December 2008	30 June 2008
Minimum payable within 12 months	\$80,176	-

NOTE 9: EVENTS SUBSEQUENT TO REPORTING DATE

There were no events subsequent to Reporting Date.

DIRECTORS' DECLARATION

The directors of the company declare that:

1. The financial statements and notes, as set out on pages 5-11:
 - a. comply with Accounting Standard AASB 134: Interim Financial Reporting and the Corporations Regulations; and
 - b. give a true and fair view of the economic entity's financial position as at 31 December 2008 and of its performance for the half year ended on that date.
2. In the directors' opinion there are reasonable grounds to believe that the company will be able to pay its debts as and when they become due and payable.

This declaration is made in accordance with a resolution of the Board of Directors.

INDEPENDENT AUDITOR'S REVIEW REPORT TO THE MEMBERS OF ENTERPRISE METALS LIMITED

We have reviewed the consolidated interim financial report of Enterprise Metals Limited which comprises the consolidated interim balance sheet as at 31 December 2008, and the income statement, statement of changes in equity and cash flow statement for the half-year ended on that date, a statement of accounting policies, other selected explanatory notes and the directors' declaration of the consolidated entity comprising the Company and the entities it controlled at the half-year's end.

Directors' responsibility for the half-year financial report

The directors of the Company are responsible for the preparation and fair presentation of the half-year financial report in accordance with Australian Accounting Standards including the Australian Accounting Interpretations and the Corporations Act 2001. This responsibility includes establishing and maintaining internal control relevant to the preparation and fair presentation of the half-year financial report that is free from material misstatement, whether due to fraud or error; selecting and applying appropriate accounting policies; and making accounting estimates that are reasonable in the circumstances.

Auditor's responsibility

Our responsibility is to express a conclusion on the half-year financial report based on our review. We conducted our review in accordance with Auditing Standard on Review Engagement ASRE 2410: Review of an Interim and Other Financial Reports Performed by the Independent Auditor of the Entity, in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the financial report is not in accordance with the Corporations Act 2001 including giving a true and fair view of the consolidated entity's financial position as at 31 December 2008 and its performance for the half-year ended on that date; and complying with Accounting Standard AASB 134: Interim Financial Reporting and the Corporations Regulations 2001. As the auditor of Enterprise Metals Limited, ASRE 2410 requires that we comply with the ethical requirements relevant to the audit of the annual financial report.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Grant Thornton (WA) Partnership ABN 17 735 344 518, a subsidiary or related entity of Grant Thornton Australia Limited ABN 41 127 556 389.

Grant Thornton Australia Limited is a member firm within Grant Thornton International Ltd. Grant Thornton International Ltd and the member firms are not a worldwide partnership. Grant Thornton Australia Limited, together with its subsidiaries and related entities, delivers its services independently in Australia.

Liability limited by a scheme approved under Professional Standards Legislation.

Independence

In conducting our review, we complied with the independence requirements of the Corporations Act 2001.

Conclusion

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of Enterprise Metals Limited is not in accordance with the Corporations Act 2001, including:

- a. giving a true and fair view of the consolidated entity's financial position as at 31 December 2008 and of its performance for the half-year ended on that date; and
- b. complying with Accounting Standard AASB 134: Interim Financial Reporting and Corporations Regulations 2001.
